## Wine List

*Great care and time has gone into creating a well-balanced Wine List. To make it even more enjoyable we have included an array of wines that can be enjoyed by the glass or even half a glass. Some wines are available as 100ml or 185 ml servings. Now you can enjoy a glass of superb quality Red wine with your meal, even if you have decided on white for the table.*

*Please take the time to look through our extensive list to familiarize yourself as to what we have to offer. Some wines are available in the Foyer as tastings (25ml), half glass (100ml) or full glass (185ml). Ask your waiter or manager for a Wine Card which is preloaded with a R200 value. Insert the card into the machine and a red light will appear at the first button above the wine, indicating the price for a tasting (25ml), it will move onto the next button, indicating the price for half a glass (100ml) and lastly moving to the third and final button, indicating the price for a full glass (185ml). Should you like a tasting at first, select a glass from the shelves beneath the dispensers, holding it underneath the spout, touch and hold in the first button (for tasting). The wine will be dispensed, and the amount will be deducted from your card. If you feel like having a full glass of the tasted wine, hold the glass underneath the spout and touch and hold down the third button. At the end of the evening hand the card back to your waiter or manager. You will only be charged on consumption, therefore if you only had one tasting, you will only be charged for one tasting.*
